Birthdate: 2015
Height: 1.72m
Level: PSG
Studbook: KWPN (Royal Dutch Sporthorse)
Colour: Dark bay
Breeder: J.G. Toes
Stud fee:

**Negro combined with the proven sport and broodmare Zveva Lonka**

Katy Lonka is a daughter of the preferente stallion Negro, especially known for being the sire of the double Olympic Individual Champion Valegro (Charlotte Dujardin). Katy Lonka's dam is the proven sport and broodmare Zveva Loka. This elite mare by Goodtimes herself competed at ZZ-Light-level and also produced the Grand Prix horse Caron RT. Granddam Nilonka also competed successfully at ZZ-Light-level and proved to be an exceptionally valuable broodmare.  Via Colway Bold xx, the ster, prok, sport and prestatie mare contributed the much-desired thoroughbred blood and produced four successful dressage horses and two AES-approved stallions. We also know remarkable jumping horses out of this versatile Holstein bloodline including the KWPN-approved Sibon W and Chela LS, competitor at the 2018 WEG in Tryon with Ashlee Bond.

The still young Katy Lonka already demonstrated her potential as a three-year-old by scoring 85 points for her trot and canter and 80 points for exterior during the studbook inspection. That gave her the provisional keur predicate during the Central Licensing. After a good test she became as a 4 year old Elite. And at the age of 6 she was competing at Z2 level, so she earned already the Sport predicate. At the age of 7 she was successful in the Prix st Georges
