

NIKA VAN'T STUDUTCH

Gender: Mare
Birthdate: 2018
Height: 0.00m
Level:
Studbook: KWPN (Royal Dutch Sporthorse)
Colour: Dark bay
Breeder:
Stud fee:

Quick Star daughter x Kannan x full-sister Quickly de Kreisker

More beautifully-bred than the mare Eljadida du Cedre is not easy to find. The mare is an offspring of Kannan (s. Voltaire) who was so successful in French breeding. For many consecutive years large numbers of Kannan offspring have had remarkable success at international competitions. It even took the KWPN-registered stallion into the upper section, including the leading position, of the WBFSH world rankings of the best jumping horse progenitors. The same is true of Diamant de Semilly (s. Le Tot de Semilly), the sire of Eljadida's dam Urgada de Kreisker. Diamant de Semilly's leading position was mainly thanks to his son Quickly de Kresiker. Precisely this phenomenal jumping stallion is a full brother of Urgada! Meanwhile, Urgada (2008) has also proven herself as a broodmare. She produced the international-level Casablanca du Cedre, a full-sister of Eljadida, and two approved stallions, including the remarkably talented Estoril du Cedre.

This brings us to Eljadida's granddam, the well-known mare Briseis d'Helby. This exceptionally valuable broodmare is a daughter of the fantastic Thoroughbred stallion Laudanum xx. Briseis d'Helby is also the dam of eight international jumping horses, three of which compete at 1.60m-level. These three, including Quickly de Kreisker of course, are all approved for the French SF-studbook. In total, Briseis d'Helby produced four approved sons.

Eljadida is competing a 1.30m level with Zoi Snels
