

## CALIX DI FER VAN'T STUDUTCH

Gender: Stallion  
Birthdate: 01-06-2025  
Height: 0.00m  
Level:  
Studbook: Array  
Colour: Grey  
Breeder:  
Stud fee:

*Chacco Blue out of the famous Qerly chin de Muze dam line- four 1.60m-dams.*

### **Chacco Blue x Just di Fer**

This stallion foal combines the currently rare genes of Chacco Blue with one of the best performance lines in the world.

The dam, Just di Fer, is a daughter of the stallion Tornesch—the former world number one under Sweden's Malin Baryard-Johnsson—and the mare Sea Coast Ferly. This Ferly de Muze competed successfully at the 1.60m level with Belgium's Gudrun Patteet, earning numerous top placings in five-star events. The pedigree further includes the 1.60m mares Narcotique de Muze II, Qerly Chin, and Kerly. Just di Fer herself competes internationally at the 1.30m level and has already produced the Oldenburg-approved stallion Prestige di Fer van 't Studutch (by Chacco-Blue).

Danline of Just di Fer (by Tornesch, 2014):

- Dam: Sea Coast Ferly (by Calato), competed at the 1.60m level with Gudrun Patteet and is the (grand)dam of four internationally ranked horses, including Brunello di Fer (1.50m)
- Granddam: Narcotique de Muze II (by Darco), competed at the 1.60m level with Eric Lamaze. She directly produced 13 international showjumpers, including five at the 1.60m level and five approved stallions. She is also the granddam of over 40 international horses, including 11 at the 1.60m level. Among her offspring are well-known names such as Querlybet Hero (Philippe Lejeune), Vagabond de la Pomme (Pénélope Leprevost), Go Easy de Muze (Darragh Kenny), and Sterrehof's Ushi (Julia Houtzager-Kayser)
- Great-granddam: Qerly Chin (by Chin Chin), competed at the 1.60m level with Christophe Barbeau. She directly produced 13 international showjumpers, five of which competed at the 1.60m level. Her extensive offspring include many notable names, such as Exquis Walnut de Muze (Harrie Smolders) and Jenson van 't Meulenhof (Niels Bruynseels)
